

360° LED garage/workshop light with 13 adjustable panels

With a total of 13 LED panels that can be individually folded out by 90°, the 360° LED luminaire from SCHWAIGER[®] is ideally suited for bright illumination in garages, workshops or other workrooms. The luminaire produces bright daylight and can be individually

aligned according to the respective conditions on site. No tools or electronic knowledge are required for installation. Thanks to the E27 base, the lamp can simply be screwed into existing lamp sockets like a conventional light bulb.
