

## 3 in 1 Multi Sensor

Motion - Temperature - Light

This SCHWAIGER® motion detector allows for automation of light control and alarms. Apart from detecting motion, it measures temperature and intensity of light. It is equipped with a tremor sensor and triggers an

alarm upon being tampered with. Power supply is made via batteries.

### ARTICLE INFORMATION

Article Nr ZHS06  
 EAN 4004005307900

Last updated: 13.06.2017

(ZHS06)

- sensor for detection of motion, temperature, tremors, light
- ability to update via Z-Wave
- unlimited possibilities of automation (Z-Wave)
- automatic exchange of status messages at regular radio connection with the Gateway
- battery-operated
- content: sensor, 1x screw and wall plug, 2x adhesive pad, battery (CR 123A), user manual

## TECHNICAL DATA

Integrated protocols	Z-Wave
Mounting type	mounting on walls or ceilings
Point of use	indoor use
Battery type	CR123A
Brightness range	0 - 32,000 Lux
Power supply	via battery: 1 piece
Colour	white
Dimensions (width)	46 mm
Dimensions (height)	46 mm
Dimensions (depth)	46 mm
Packaging	carton
