

## Motion Detector

for room surveillance

This SCHWAIGER® motion detector reacts to motion and sends information to the Gateway. The sensor can be installed on a wall either with screws or with double-sided tape. Power is supplied via batteries.

(ZHS21)

- sensor for motion detection
- large range and beam angle
- mounting with screws or double-sided adhesive tape
- battery-operated
- content: motion detector, mounting plate, battery (CR 123A), user manual

## TECHNICAL DATA

Integrated protocols	ZigBee
Mounting type	wall mounting
Point of use	indoor use
Coverage angle (PIR)	90 °
Coverage area	8 - 10 m
Display	light-emitting diodes (LED)
Battery type	CR123A
Temperature range	-10 °C - +50 °C
Frequency range	2.40 GHz
Power supply	via battery: 3 V DC (1 piece)
Colour	white
Dimensions (width)	65 mm
Dimensions (height)	65 mm
Dimensions (depth)	28.5 mm
Packaging	carton
